Bridging PC and HDTV

Play your movie library on your HDTV in two easy steps: connect the LaCinema Mini HD to your computer to easily store your movies, then connect it to your TV for instant playback. No configuration is required. You'll save time and avoid having to burn CDs/DVDs to hold all of your media. You'll also be able to store and enjoy your MKV, DivX, and many more file types on any TV.

Made for HDTV

Improve the look of your movies and photos on your HDTV with full HD 1080p playback and upscaling. With no compromise on quality, the LaCinema Mini HD goes one step further by adding stunning 1080p playback through HDMI 1.3. This multimedia hard disk supports a wide variety of video, photo, and music formats. An easy-to-use on-screen menu and remote control have been designed to improve your experience.

Sophisticated, Functional Design

Amazingly small for its capabilities, the LaCinema Mini HD Wi-Fi media center brings a world of entertainment to the palm of your hand. Designed by Neil Poulton, it adds a fashionable style to your home cinema setup.

Media Player and Server

Once connected to your home network, the LaCinema Mini HD functions as a media player and server. You can easily access all digital content stored on your PC, Mac, or network hard drive (NAS). It can also share all stored content with connected devices such as DLNA® TVs, players or game consoles (like a Playstation® 3 or an Xbox® 360).
